

HOUSE OF MARBLES

You can follow this diagram when setting up your magnificent marble run - but consider conceiving of and connecting a constructive configuration of your own.

When you are finished we would love to see it- why not take a photograph of your marbellous masterpiece and post it on our 'house of marbles' facebook page (simply 'like' us to get in) or email your picture to enquiries@houseofmarbles.com. Please note: This run is designed for 14mm (9/16inch) marbles only.
